PROFESSIONAL SUMMARY

I am a passionate Full-Stack Software Engineer with nearly 4 years of hands-on experience building scalable web applications using ReactJS and Laravel. Quick to learn new technologies, collaborative in a team environment and dedicated to delivering reliable, high quality software from development to deployment.

WORK EXPERIENCE

Fligno Software Philippines

Cagayan de Oro City, Philippines

Software Engineer

January 2022 - Present

- Maintained legacy codebases and improved code quality.
- Designed and developed dynamic Single Page Applications (SPAs) using modern javascript frameworks.
- Create and Integrate RESTful APIs to support frontend functionality.
- Debugged and resolved software issues, improving application performance and stability.
- Utilized GitLab for version control, branch management and CI/CD automation.
